

“Expert consulting and software products
for the support of business processes
along our customers' entire value chain.”

Dr. Rudolf Caspary Chief Executive Officer (CEO) REALTECH AG

Work History

Dr. Dipl.-Ing. Rudolf Caspary has been Chief Executive Officer (CEO) of REALTECH AG since August 01, 2011. In this role, he oversees the group's international strategy and is responsible for the business units consulting and software products as well as investor relations.

He joined the executive board of REALTECH AG in March 2004 as Chief Technology Officer (CTO), being responsible for the worldwide business of the theGuard! software portfolio. Between April 2000 and March 2004, Dr. Caspary served as Managing Director of REALTECH system consulting GmbH and oversaw the company's software development, support, remote services, hosting services, and internal IT department.

After earning his doctorate in experimental solid-state physics, Dr. Caspary joined SAP AG in Walldorf, Germany as a developer in the central Basis development department in 1992. During his time here, he worked on the development of the R/3 kernel with a focus on the development of database and backup management solutions for Oracle. Between 1995 and 2000 he served as head of development, which put him in charge of DB management as well as all development and partner activities. At the same time, he was a member of the executive board of the German Oracle Users Group (DOAG) where he was responsible for all technical aspects.

In his role as head of development, Dr. Caspary oversaw the international AS/400 porting of mySAP.com in 1999 before joining REALTECH system consulting GmbH in 2000.
